

WORLD SPECTACLE TO BE UNFOLDED TO PAPER EDITORS

(By Associated Press.)
Hilo Island of Hawaii, T. H., Sept. 30.—One of the world's greatest spectacles of nature—demonstrations of volcanic activity by Kilauea volcano on this island—will very possibly be unfolded before the eyes of delegates to the forth-coming World's Press Congress sessions in Honolulu October, according to L. W. deVis-Norton, secretary of the Hawaiian Volcano Research Association and authority on the Hawaiian volcanoes. The lava column within the vast crater of Kilauea has been rising steadily, according to reports from Hawaiian Volcano Observatory on the rim of the great crater directly overlooking the volcano. The molten lakes within the great fire pit are increasing their area so rapidly that the shoals and lava rock islands which were conspicuous objects upon the lake's surface are disappearing by one as the molten floods overwhelm them.

The itinerary for the Press Congress delegates calls for their arrival here on the evening of October 4 and it has been arranged that the next two days will be spent by the delegates at the volcano among the wonders of America's latest National Park.
Kilauea's activities about this time, the observatory reports that if these conditions materialize delegates will witness a scene of marvelous and awe-inspiring brilliancy, Mr. deVis-Norton said.
Many strange things are transpiring in connection with the rapid upward swell of molten interior of the volcano within the vent of Kilauea, Mr. deVis-Norton said. A gigantic mass of rock is being forced steadily upward to the depths and is already rearing its crest high above the white torrents that lap its base. The continuous movement and the vibrations of this great mass is causing avalanches to rush down its sides. The result is that it has scalloped until the rock mass has taken on an extremely sharp pinnacle rising high above the lakes.
Another phenomenon in evidence causing considerable comment. The subsidence that occurred after explosive eruption of last March Kilauea caused heavy avalanches all from the walls of the great pit. These, crashing down to the bottom, formed talus slopes which became covered with debris from above. During the past few days a series of breakable spouting lava springs broken out at intervals along top of these debris slopes, showing that an irresistible torrent of lava is forcing its way up within the vent, Mr. deVis-Norton said. The points of emergence are high above the lava lakes and every few minutes, glittering and spectacular fountains of molten fire and flame pour down over the slopes to the bottom. It is "as though the great pool rapidly at Niagara Falls had been turned into flame" and the spectacle is especially striking at night, Mr. deVis-Norton said.

Some Still Most Expensive City In the Old World
Sept. 30—Rome is still the most expensive large city of Italy. According to latest figures published by the cost of living, the Eternal City is percent dearer than it was in 1920. This, however, is a diminution of the cost of living during the past year when, during March, the cost of living soared as much as 30 percent higher than last year.
Other expensive cities are Milan, Florence and Turin which are to about 18 percent over the 1920 figures. Venice and Trieste are but 10 percent over the figures of last year.

Restaurant Men To New Food Ideas
Sept. 30—Members of the National Restaurant Association convene here October 3 to 7, entertained by an elaborate program arranged by the local organization, according to Al B. Card, secretary of the association.
The Philharmonic auditorium will be the convention's headquarters. In the basement will be an extensive equipment and machinery for the preparation of foods.
The association has for its purpose the promotion of higher standards of service in the restaurant industry and the guiding of the public to better eating places," Mr. Card said.

Many Notables to Attend National Red Cross Meet

(By Associated Press.)
Columbus, O., Sept. 30.—The National Red Cross convention which will convene in this city on October 4 and last five days, bids fair to be the most important of these gatherings that has ever been held, even of more significance from Red Cross viewpoint than the meetings held during the great war.
Men and women prominent in all walks of life are on the program to deliver addresses to the delegates.
Dr. Livingston Farrand, chairman of the Central Committee of the American Red Cross and president of Cornell University, will preside at a meeting October 4, when Dr. W. O. Thompson, president of Ohio State University will deliver the address of welcome. Gov. Harry I. Davis of Ohio and Mayor James J. Thomas of Columbus will welcome the delegates for the city and state. President Harding is expected to be the principal speaker.
Dr. Henry Noble McCracken, president of Vassar college will preside at the Junior Red Cross meeting in the afternoon of Oct. 5 "The Challenge of Childhood in America to the Red Cross," is the subject on which Miss Charl Williams, of the National Educational Association will speak. Dr. W. W. Marquart, educational agent for the Philippine Islands in the United States, will address the convention on "The Juniors at Work in Our Insular Possessions." Herbert Hoover, secretary of commerce, will speak on "The Challenge of Childhood in Foreign Lands and What Junior Red Cross is Doing There," while Senator Frank B. Wil-

lis of Ohio, is to deliver an address on "The Future Builders of the Nation and Citizenship Training."
The evening meeting dedicated to America's Obligation to Her Service Men and Women, will be presided over by Dr. Farrand and ten minute speeches will be delivered by such notables as Dr. Thomas E. Green, director of the Speakers Bureau of the American Red Cross; Major General LeJeune, U. S. Marine Corps; Rev. Francis P. Duffy, Chaplain 165th Regiment; Mrs. Frank V. Hammar, Chairman St. Louis Chapter, American Red Cross; Theodore Roosevelt, Assistant Secretary of the Navy; Rabbi Stephen Wise, Free synagogue of New York; W. Frank Parsons, vice-chairman in charge of Domestic Operations, American Red Cross; John G. Emery, National Commander American Legion and General John J. Pershing.

Robert S. Gast, chairman of the Red Cross Relief Committee of Pueblo, Colorado, will address the convention on "The Red Cross in Disaster" on the morning of October 6. Miss Mabel F. Boardman, Secretary of the American Red Cross, will preside.
Reunions of Red Cross workers who served in the world war will be held at a series of luncheons.
Sectional conferences will be held on the evening of October 7 and morning of October 8. A mass meeting on roll call will constitute the afternoon's program, winding up with the historical pageant of the Red Cross in the evening.

Reports of Legion Convention To Be Most Complete Yet

(By Associated Press.)
Kansas City, Mo., Sept. 30.—Accommodations for correspondents, representing newspapers, magazines and news distributing agencies in the country will be provided during the convention of the American Legion here October 31-November 2. The plan devised by the convention executive committee calls for a press box the entire length of the stage, with a passage leading under the speaker's stand to a press-room where typewriters will be provided, together with multigraph machines and operators at specially installed

telegraph keys.
Newspaper men, provided with cards that vouch for their credentials may go freely back and forth from the press box to the press room. Stenographic reports of the convention proceedings will be transcribed in "takes" which will be turned over to the American Legion News Service desk, where the copy will be edited down to what might interest the newspaper writer. The edited copy will be sent, a page at a time, to the multigraph machine beneath the stage, where it will be stenciled and multigraphed, and the copies sent back to the press box, to be distributed to the news correspondents.
Under the plan an adequate running story of the proceedings will reach the press box on an average of twenty minutes behind actual hap-

penings on the convention floor, according to Chester T. Start, chairman of publicity.
Any list of the light fiction of the day should include Japan's assertion that she seeks no special advantage in China.

I-C-E!
These are the Days of
The Keen, Cutting Thirst

The shank of the heated term is here and we are all glad of it. Even this ice man of yours, being human, is looking forward to cooler days.

In the meantime, everybody is conscious of a peculiar thirst, especially during the middle hours of the day. It is then that children are inclined to pester and folks of older growth find themselves impatient at trifles.

There is a simple remedy for this condition; it is a cooling drink. Mother, put a few lemons in the refrigerator and be prepared to serve lemonade to the little ones. Drink it yourself—you could not choose a better beverage.

Don't let your ice supply run low. Watch it—guard it—as never before. Don't let your refrigerator lose a fraction of a degree of its efficiency—too much depends upon it. Keep it well loaded with OUR ICE.
